| 4.   | First aid measures  |   |
|------|---|---|
| 4.1. | Description of first aid measures                           |   |
|      | Inhalation  | Move affected person to fresh air at once. Rinse nose and mouth with water. Get medical attention if any discomfort continues.  |
|      | Ingestion   | Never give anything by mouth to an unconscious person. Do not induce vomiting. Rinse mouth thorougly with water. Get medical attention if any discomfort continues.                             |
|      | Skin contact  | Remove affected person from source of contamination. Remove contaminated clothing. Wash skin thoroughly with soap and water. Get medical attention if any discomfort continues.                 |
|      | Eye contact   | Remove any contact lenses and open eyelids wide apart. Continue to rinse for at least 15 minutes. Continue to rinse for at least 15 minutes. Get medical attention if any discomfort continues. |
| 4.2. | Most important symptoms and effects, both acute and delayed |   |
|      | Inhalation  | No specific symptoms known.   |
|      | Ingestion   | No specific symptoms known.   |
|      | Skin contact  | No specific symptoms known.   |
|      | Eye contact   | No specific symptoms known.   |
| 4.3. | Indication of any imme                                      | diate medical attention and special treatment needed  |
|      | Notes for the doctor  | No specific recommendations.  |

### 5. Firefighting measures

### 5.1. Extinguishing media

Suitable extinguishing media

The product is not flammable. Use fire-extinguishing media suitable for the surrounding fire.

### 5.2. Special hazards arising from the substance or mixture

|      | Specific hazards  | Protection against nuisance dust must be used when the airborne concentration exceeds 10 mg/m3.   |
|------|---|---|
| 5.3. | Advice for firefighters   |   |
|      | Protective actions<br>during firefighting                           | Avoid breathing fire gases or vapours. Fight fire from safe distance or protected location. Control run-off water by containing and keeping it out of sewers and watercourses.  |
|      | Special protective<br>equipment for<br>firefighters                 | Use protective equipment appropriate for surrounding materials.   |
| 6.   | Accidental release me   | easures   |
| 6.1. | Personal precautions, protective equipment and emergency procedures |   |
|      | Personal precautions  | For personal protection, see Section 8. In case of spills, beware of slippery floors and surfaces.  |
| 6.2. | Environmental precauti  | ons   |
|      | Environmental precautions   | Do not discharge into drains or watercourses or onto the ground.<br>Avoid or minimise the creation of any environmental contamination.<br>Spillages or uncontrolled discharges into watercourses must be<br>reported immediately to the Environmental Agency or other<br>appropriate regulatory body. |
| 6.3. | Methods and material f  | for containment and cleaning up   |
|      | Methods for cleaning up   | Stop leak if possible without risk. Absorb in vermiculite, dry sand or earth and place into containers. Flush contaminated area with plenty of water. Avoid the spillage or runoff entering drains,   |

#### 6.4. Reference to other sections

**Reference to other** For personal protection, see Section 8. See Section 11 for additional

sewers or watercourses. For waste disposal, see Section 13.

|      | sections                        | information on health hazards. For waste disposal, see section 13.  |
|------|---------------------------------|---|
| 7.   | Handling and storage            |   |
| 7.1. | Precautions for safe handling   |   |
|      | Usage precautions               | Avoid spilling. Avoid contact with eyes.  |
| 7.2. | Conditions for safe sto         | rage, including any incompatibilities   |
|      | Storage precautions             | Store in tightly-closed, original container in a dry, cool and well-ventilated place.   |
| 7.3. | Specific end use(s)             |   |
|      | Specific end use(s)             | The identified uses for this product are detailed in Section 1.2.   |
| 8.   | Exposure Controls/p             | ersonal protection  |
| 8.1. | Control parameters              |   |
|      | Occupational exposure<br>limits | e No data available.  |
| 8.2. | Exposure controls               |   |
|      | Protective equipment            |   |
|      | Appropriate                     | Avoid inhalation of vapours. Observe any occupational exposure limits   |
|      | engineering controls            | for the product or ingredients. Provide adequate ventilation.   |
|      | Eye/face protection             | Eyewear complying with an approved standard should be worn if a risk assessment indicates eye contact is possible. The following protection should be worn: Chemical splash goggles or face shield. |

| Hand protection                | Chemical-resistant, impervious gloves complying with an approved<br>standard should be worn if a risk assessment indicates skin contact is<br>possible.  |
|--------------------------------|--|
| Other skin and body protection | Min.250 °C   |
| Hygiene measures               | Wash promptly if skin becomes contaminated. Promptly remove non-<br>impervious clothing that becomes contaminated. When using do not<br>drink or smoke. Contaminated clothing should be placed in a<br>closed container for disposal or decontamination. |
| Respiratory protection         | No specific recommendations. Respiratory protection may be required if excessive airbone contamination occurs.   |

### 9. Physical and Chemical Properties

### 9.1. Information on basic physical and chemical properties

| Appearance   | Liquid.                                     |
|--------------|---|
| Flash point  | 184 °C                                      |
| Bulk density | 0,827 g/cm <sup>3</sup> @15°C (ASTM D 4052) |
| Viscosity    | 7,00-8,50 mm²/s @ 100°C                     |

### 9.2. Other information

**Other information** Not available.

### 10. Stability and reactivity

10.1. Reactivity

**Reactivity** There are no known reactivity hazards associated with this product.

Page 7 / 11

| 10.2. | Chemical Stability                                |   |
|-------|---|---|
|       | Stability   | Stable at normal ambient temperatures and when used as recommended. Stable under the prescribed storage conditions. |
| 10.3. | Possibility of hazardous                          | reactions   |
|       | Possibility of<br>hazardous reactions             | Will not polymerise.  |
| 10.4. | Conditions to avoid                               |   |
|       | Conditions to avoid                               | Avoid excessive heat for prolonged periods of time.   |
| 10.5. | Incompatible materials                            |   |
|       | Materials to avoid                                | No specific material or group of materials is likely to react with the product to produce a hazardous situation.    |
| 10.6. | Hazardous decomposition products                  |   |
|       | Hazardous decomposition products                  | <b>on</b> Fire creates: Carbon monoxide (CO). Carbon dioxide (CO2).   |

|       | STOT – repeated<br>exposure                      | No information available.   |
|       | Inhalation                                       | No specific health hazards known.   |
|       | Ingestion  | May cause discomfort if swallowed.  |
|       | Skin contact                                     | Liquid may irritate skin.   |
|       | Eye contact                                      | May cause temporary eye irritation.   |
| 12.   | Ecological Information                           | ٦   |
| 12.1. | Toxicity   |   |
|       | Ecotoxicity                                      | Harmful to aquatic organisms, may cause long-term adverse effects in the aquatic environment. |
| 12.2. | Persistence and degradability                    |   |
|       | Persistence and degradability                    | There are no data on the degradability of this product.                                       |
| 12.3. | Bioaccumulative potentia                         | al  |

Page 8 / 11

Bioaccumulative potential No data available on bioaccumulation.

12.4. Mobility in soil

MobilityThe product is partly miscible with water and may spread in the<br/>aquatic environment.

12.5. Results of PBT and vPvB assessment

Results of PBT and vPvBThis product does not contain any substances classified as PBTassessmentor vPvB.

12.6. Other adverse effects

**Other adverse effects** No information required.

13. Disposal considerations

#### 13.1. Waste treatment methods

| General information | The packaging must be empty (drop-free when inverted).  |
|---------------------|---|
| Disposal methods    | Dispose of waste to licensed waste disposal site in accordance with<br>the requirements of the local Waste Disposal Authority.<br>Environmental Manager must be informed of all majör spillages.<br>Avoid the spillage or runoff entering drains, sewers or watercourses. |

| 14.   | Transport informatio       | n   |
|-------|----------------------------|---|
| 14.1. | General                    | The product is not covered by international regulations on the transport of dangerous goods (IMDG, IATA, ADR/RID) |
| 14.2. | UN Number                  | Not applicable  |
| 14.3. | UN proper shipping<br>name | Not applicable  |

14.4. Transport hazard class No transport warning sign required.

- **14.5. Packing group** Not applicable
- 14.6. Environmental hazards

Environmentally hazardous substance/marine No pollutant

- 14.7. Special precautions Not applicable. for user
- 14.8. Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Transport in bulk Not applicable. according to Annex II of MARPOL 73/78 and the IBC Code

#### 15. Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

The Chemicals (Hazard Information and Packaging for Supply) Regulations 2009 (SI 2009 No.716)

- GuidanceWorkplace Exposure Limits EH40.<br/>CHIP for everyone HSG228.<br/>Safety Data Sheets for Substances and Preparations.<br/>Approved Classification and Labelling Guide (Sixth edition) L131.
- **15.2.** Chemical safety No chemical safety assessment has been carried out. assessment

# 16. Other information Key literature references and sources for data This SDS is prepared based on the information received from the the product raw material.

- H302: Harmful if swallowed
- H314: Causes severe skin burns and eye damage
- H315: Causes skin irritation; Skin Corr/Irritation, Cat 2
- H317: May cause an allergic skin reaction.
- H319: Causes serious eye irritation.
- H335: May cause respiratory irritation.
- H400: Very toxic to aquatic life.
- H410: Very toxic to aquatic life with long lasting effect.

This information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process. Such information is, to the best of the company's knowledge and belief, accurate and reliable as of the date indicated. However, no warranty, guarantee or representation is made to its accuracy, reliability or completeness. It is the user's responsibility to satisfy himself as to the suitability of such information for his own particular use.
